

BRIEF INFORMATION

HELLA VALUEFIT MINI beacon

- A beacon with fixed amber lens with IP 67 protection
- Ideally suited for non regulated regions
- Effective short term protection against spike in voltage and polarity reversal

PRODUCT FEATURES

The HELLA VALUEFIT MINI LED beacon with amber single and double flash function is a convincing all-round talent. With a compact shape and a height of only 112 mm, it is ideal for use on industrial trucks such as forklifts, for example. The beacon with 32 LEDs has a power consumption of just 7 watts, making it the ideal entry point for switching from halogen to LED technology. Base and housing are made of sturdy polycarbonate.

TECHNICAL DETAILS

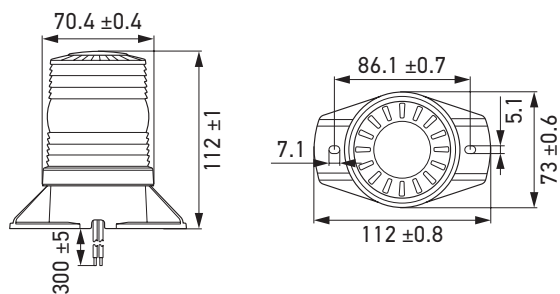

Technical data

Rated voltage	Multi voltage
Operating voltage	10–110 V
Current consumption*	0.5 W per LED
Power consumption	7 W
Light function	Single and double flashing
Light source	LED
Colour temperature	2,700 K
Material	Polycarbonate lens and base
Weight	Gross weight 555 g, net weight 444 g
Protection class	IP 67
Mounting	Upright
Connection	300 mm cable leads
Amount of LEDs	32
Mounting specification	Bolt mounted with 3 pcs M4

* at max. power
